

# Embroidery

*A touch of luxury*

**Highlights** • EN-ISO 9002 certified • Representative • Your design made in house • Direct embroidery possible

The best suited application for the superior embroidered emblems is corporate wear with an explicit representative function. But they also fit perfectly with sportswear, industrial clothing and career wear.

The magnificent colours and the characteristic three-dimensional effect give your embroidered emblem a special appearance.

Important to know: direct embroidery is possible too. Interesting for promotional wear, fashion and company clothing. And prices are surprisingly low! Our advanced production unit daily delivers top quality embroidery. Even the designs are made in house, through a specialized CAD system which translates any design into a stitch pattern.

Thermopatch keeps full control over your order from beginning to end.

**Specifications:** For technical details please see our Specifications leaflet which can be downloaded from our website at [www.thermopatch.com](http://www.thermopatch.com)
