

Fixation tape & dispenser

Sealing becomes easy!

Highlights • Easy to use • Fast • Increase in sealing productivity • Cost effective

Speeds the sealing of transfers and emblems.....

With this Fixation tape you make positioning of emblems and transfers outside the heat seal press much easier.

Place the emblem or transfer on the article at the position where it has to be sealed and fix it with the Fixation tape. Seal the emblem or transfer, let it cool down and remove the Fixation tape, and with transfers the carrier as well, without leaving any marks.

Sealing productivity

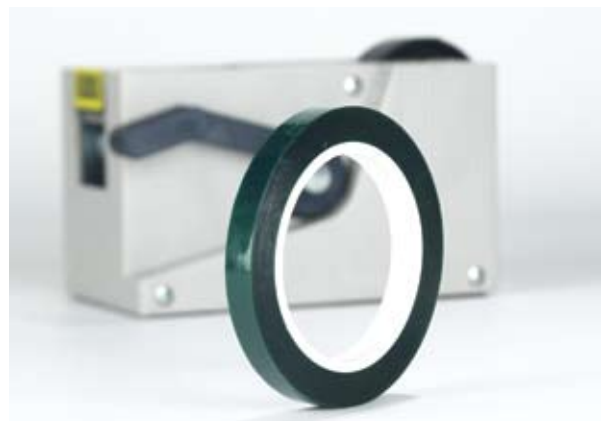

Because you can position the emblems and transfers outside the sealing area, the heat seal press can give more output because you have less down-time and "anyone" can operate the heat seal press.

Dispenser

This manual dispenser requires you to set the length of the tape that you want to use and it cuts the tape when you pull it from the dispenser.

Fixation tape

The tape is supplied in rolls of 6 per pack, 12 mm wide and 66 meters long.

Specifications: For technical details please see our Specifications leaflet which can be downloaded from our website at www.thermopatch.com
