

Flextrans

The flexible transfer for textiles

Highlights • Flexible • Suitable for many different textiles / applications • High quality images • Strong colours • Domestic wash 60 °C

What is Flextrans?

Flextrans is a heat seal transfer (printed on a clear carrier) that flexes with the fabric.

Like Truflex, Flextrans images are of a constant high quality with colours that are striking and strong.

Any combination of colours and sizes is possible.

Applications

Because of its flexibility Flextrans transfers are ideal for sports wear, Lycra garments and various other fabrics with a stretch. It is equally suitable for promotional articles such as polo-, sweat- and T-shirts.

Quantities

Flextrans transfers are delivered with a minimum quantity of 25 pieces.

Also available in highly visible orange, green, red, pink and yellow!

Specifications: For technical details please see our Specifications leaflet which can be downloaded from our website at www.thermopatch.com
