

Make Your Mark *Textile label printing software*

Highlights • Compatible with Windows XP & Vista • Alignment text (left, right or centered) • Barcode printing
• Sequential numbering • Internal database • Extended Clipart • "What You See Is What You Get"

Easy labelling

The 'Make Your Mark' labelling application makes laying out your labels easy. This very user friendly software provides ample choice of fonts, positions and sizes. Of course, the well-known Interleaved 2 of 5 bar code and other symbologies are incorporated, as well as an extended clipart.

Integration

The 'Make Your Mark' program has been developed for standalone environments. Yet it will function excellently within a local area network too. In the automatic mode, the program will pause until a text file is imported. This file will then be transferred to your predefined label layout – ready to print!

Specifications: For technical details please see our Specifications leaflet which can be downloaded from our website at www.thermopatch.com
